

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

The North East School District will launch our K-12 Summer Learning Lab which is an enrichment extension for any student. The Summer Learning Lab is open to any student in the North East School District. The Lab will run for five weeks on Mondays through Thursdays

from 8:30 a.m. and end promptly at 12:30 p.m. Breakfast and lunch will be provided as well as modified shuttle transportation. All K-12 programs will be held in our North East Middle School building for the Summer Learning Lab. We will utilize formative, summative and diagnostic testing to identify our students in greatest need; however, our Summer Learning Lab will be open to all students. In addition, we have partnered with IU5 in order to provide additional opportunities for our students.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	124	We provided services for all our students. We developed a comprehensive program to include physical activity, ELA, Math, Science, Pool, Music, STEAM, and SEL.
Children from Low-Income Families	Emotional Wellness	105	We will implement Social-Emotional Learning Classes built into the schedule and use our therapy dog program.

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

We are utilizing our SAS aligned curriculum standards and resources, Reading Eggs, Journey's digital, IXL, and Study Island platforms. We are also using ReThink education curriculum which is an evidenced-based program, aligned to Pennsylvania and the Collaborative for Social-Emotional Learning SEL strategies.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
1	Internal Provider	Summer Learning Lab Administrator
2	Outside Provider	Therapy Dog Program
21	Internal Provider	Certified teachers in ELA, Math, STEAM, Art, Music, PE to provide instruction to our students.

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
MAPS	4	We will use the results from the end of the current year administration and add an additional administration at the end of SSL.

6. How will the LEA engage families in the summer school program?

The district will survey families of interest, send home a letter to families, have the students sign-up for SSL. The Summer Learning Lab administrator will send out a welcome letter to families. The teachers of the SLL will communicate with families on an on-going basis. They

will also conduct a family engagement day.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget
 \$33,086.00
Allocation
 \$33,086.00

Budget Over(Under) Allocation
 \$0.00

Budget Summary

Function	Object	Amount	Description
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	100 - Salaries	\$23,479.00	Salaries for teachers in the Summer Learning Lab program.
1100 - REGULAR PROGRAMS – ELEMENTARY / SECONDARY	200 - Benefits	\$9,607.00	Benefits for teachers in the Summer Learning Lab program.
		\$33,086.00
